Enterprise presentation

- The Winery Cooperative from Vidigueira, Cuba and Alvito: It is a self-contained winnery, has a vast process of production, bottling and labeling. It has half a century of history and it has more than 300 associated wine producers.

Accomplished tasks

- We followed the process from the receiving of the grapes until the final product that could be found in the shop inside the winery or in restaurants.

Products/Activities

- We followed all the weighing process, processing, fermentation, bottling, labeling, marketing and sales.

Balance of the experience

- It was a very good experience, because we realized that to give back by this wine that has so much fame, there is a very complex and diverse process that involves a lot of work from people working in the cellar.

Project Conclusion

- With the participation in this project, we had the opportunity to:
 - Do Ice breaking activities;
 - Do Working based learning activities;
 - Know one of the best infrastructures in the economic way of our region;
 - Contact with one company characterized by its dynamism and quality;
 - Identify and know the different sectors of the company: Receipt of grape in cellar, Laboratory, Manufacturing, Filling, Packaging, Sales; Marketing, Distribution;
 - Follow the different technicians in their areas of work;
 - Strengthen the interpersonal relationships;
 - Contribute to the personal and social development of all people involved;
 - Visit ISQ.

We liked to share our culture with others, show our heritage, live and experience the culture of our foreign colleagues, improve the English language and visit the Winery cooperative from Vidigueira, Cuba and Alvito.
