Enterprise presentation

- Câmara Municipal de Vidigueira. It is a governamental institution and it is the City Council, an executive organ of the municipality of Vidigueira region.
- It main goals are: The satisfaction of the needs of local communities, under the socio-economic development, regional planning, the supply public sanitation, health, education, culture, environment and sport.

Accomplished tasks

- We've been in the Municipality of Vidigueira at the Communication area and Tourism services. We had the presentation of the responsible and of the different departments of the Municipality of Vidigueira.
- We visited some monuments of the municipality.
- We took professional pictures.
- We made Researches about the monuments and made translation of that information.
- We made the layout for the booklet.
- We put the information in the booklet layout.

Clock Tower Of Vidigueira

Santo António dos Açores

Photo by: T. Nelson

Photo by: Sara Me

The town's clock tower strikes the hour with a bell carved with the Cross of the order of Christ and the arms of the Gama family. It is founded in 1520 year.

The st. António dos Açores Chapel is known by its great viewpoint, which gives us the opportunity to enjoy all the municipalities around the hill rich in gardens and olive groves characteristic of the region. This chapel is really accessible for those who want to visit it and enjoy the nature around the hill. The chapel is property of the Vila de Frades Parish.
